

Tower of Reflection
This tower is a reflection for people to go sit at, or climb up inside to look out at the beautiful Earth.

The hearts were created with black and brown surrounded by gold to remind all that Black Lives Matter, we are all in this together.

The height of the tower allows people to see the hearts from afar. They are lit up at night with lanterns and a fireworks show.

The spiral staircase leads you to to an indoor lookout station as well as glass balcony.
